Grand Island, NE 68803

Subject: Follow-up to my December 11, 2003 request to permanently take action to cease selective enforcement and inconsistent handling of my business with CPNRD.

Dear Board Members:

This letter is a followup to the above-referenced Certified letter which was received in your office on December 15, 2003. A copy of that letter is attached for your reference.

I had requested a written response from you. I am disappointed to not have received even the courtesy of a response. It is appropriate to remind you that some of these issues were first brought to your attention during my appearance before your board on October 23, 2003.

It seems reasonable to have expected and received some businesslike response and action after three calendar months.

Please provide your written reply as requested so that I may receive it at the above address not later than January 30, 2004.

Very truly yours,

Ronald D. Klein
