Governor Dave Heineman  
Office of the Governor  
1445 K St.  
Lincoln, NE 68509

**Subject: Please present this award to Roger K. Patterson, Director of the Nebraska Department of Natural Resources.**

Dear Governor Heineman:

Please present, on our behalf, the enclosed Certificate of [dubious] Achievement representing the First Ever Platte River Truth Award for Bad Science [BS] to the Nebraska Department of Natural Resources.

Since [www.platterivertruth.org](http://www.platterivertruth.org) is an entity dedicated to truthfulness and rational approaches on Platte River water issues, it is clear that the Nebraska Department of Natural Resources is currently the most deserving entity in the great state of Nebraska for receipt of this first ever award. This organization, and the top management, administrative, and legal staff of Nebraska DNR is without a doubt clearly deserving of this dubious honor.

The reasons for this conclusion are vividly clear from the extensive analysis of the facts as explained in the letter and documents enclosed with this certificate and the additional information you can find on our web site at: <http://www.platterivertruth.org>

Thank you for your assistance in making this presentation on our behalf.

Respectfully,

[www.platterivertruth.org](http://www.platterivertruth.org)
